# JUNE

*"I thank my God every time I remember you." Philippians 1:3*

WHAT A YEAR!

Unprecedented, uncharted waters. These are words that have described this year for so many people during the pandemic. We reimagined just about everything for operating preschool. We managed to still have some special yet different family events. We just had our Staff Appreciation Days. I told my staff that they are Brave and Beautiful.

And wow, you parents were fabulous. You had to get used to dropping off at the front door. You had to get used to communicating through emails with your child's teacher instead of at the classroom door. You were amazing and you made this year great with your flexibility, cooperativeness and trust in us.

And wow, did the children grow. I loved escorting your children to class and having that special time to talk with them. I also spent time substituting in the classrooms and outdoors. I loved that time with your children.

It was a hard year in so many ways. Yet it was such a great year in so many ways. Thank you for going on this journey with us!

## DADS - IT'S YOUR TURN

We want to celebrate the awesome Dads we have here. You are invited to have a special date with your child.

If Dad is not available, feel free to have a Grandpa or Uncle attend.

Due to COVID, how we have to maintain our safety protocols and because this is a special date, we must limit this event to the student and one guest only. We cannot have siblings come (unless an infant in a carrier). (Remember to wear masks.)

Meet us outdoors in the piazza behind the preschool building.
