

# B103 June Newsletter

"By this, all people will know you are my disciples if you love one another". John 13:35

Can you believe we are starting the month of June? Summer is around the corner and our beloved B103 students are about to end the school year. They have grown not only physically, but cognitively and spiritually. Children have been learning how to interact with one another, collaborate, and work as a team. They are capable of using their words to communicate their needs, and how they feel. Children understand the importance of controlling their bodies while lining up or during large group meetings.

During the following weeks, we will be learning all about the Ocean. We'll keep practicing the alphabet and numbers 1-20 and early mathematical concepts. Children's fine motor skills have improved so much in the last month. Kids are working on scaling down the size of their letters when written since they are having better control over their pencils.

On Monday & Tuesday, June 5 & 6, B103 children will have a "Wear your favorite Costume Day". We'll have games and fun activities on those days for both groups.

During that week, June 5 - 9 children can bring a special item from home to share during our group meeting. Each student will have the opportunity to introduce to the class: by saying the name, description/characteristics, and function. It can be something really simple such as a cooking utensil, an item from nature, or a favorite book. Let's keep toys at home to prevent them from getting damaged or lost.
